

Single Light Controller - DC

Aircraft Warning light controller and photo cell capable of supporting upto 1 light.

Key Features Include:

Automatic Photo Cell control.

Independent reporting of light failure.

External alarm outputs for 3rd party integration.

General	
L x H x W	198 x 46 x 92
IP Rating	IP65
Temperature Range	-30°C - 70°C
Sensor	External Photo Cell

Input	
Voltage	DC 30-60 V

Outputs	
Control Outputs	1 Light Supported
Output type	DC 30-60 V
Alarm Ouputs	1 Independant failure output
