

18000BTU Split Unit With Compressor

Standard split unit air conditioning system.

Providing cooling and dehumidification for telecommunications equipment enclosures.

CE/ROHS Compliant.

Capacity

BTU/H	18000
Min / Max	2916 / 18792

Electrical Data

Voltage & Frequency	220-240V & 50Hz
Power Input	1750W
Operating Current	8.1A

Performance

Dehumidifying Volume	2.0L/H
Air Flow Volume (Indoor)	760m³/h
Noise Level Outdoor	53dB(A)

Net Dimensions & Weight

Indoor Unit WxDxH	1000x280x350mm
Outdoor Unit WxDxH	980x400x700mm
Gross Weight Indoor / Outdoor	17/54kg

Key Features

- Low Voltage Start - Able to work normally at between 187 - 240 Volts
- Rust Free - 6 coating protection system applied to the outdoor unit

CostWORX is the leading wholesale distributor of telecom & technology infrastructure products, supplying globally through a network of local alliance partners.

- Self Protection System - Detects errors and prevents damage to unit
- Super Quiet - Both indoor and outdoor units are designed to minimise noise

Certification

CE Approved

UL Approved
