

CostWORX is the leading wholesale distributor of telecom & technology infrastructure products, supplying globally through a network of local alliance partners.

## 45m 3-Leg Tower - 20m<sup>2</sup> Loading

Optimised for cellular telecom applications, this structure is produced with deployment and operation in mind and is capable of supporting 20m<sup>2</sup> of antenna load whilst remaining within a deflection limit of 0.5° at operational wind speed.

Produced from premium steel members hot dip galvanised equivalent to ASTM A123 (2000) and connected with high grade galvanised bolts, this structure has a design life in excess of 25 years.

Export packed and supplied with holding down bolts, anchor plates and setting template, this product is the quality choice.

| Loading     | Height       | Туре                  | Area      |
|-------------|--------------|-----------------------|-----------|
| Distributed | Over Top 10m | Antenna Loading       | 20m²      |
| Linear      | Vertical Run | Feeder Cable & Ladder | 0.40 m²/m |

| Design Wind Speeds (3 Second Gust) |          |
|------------------------------------|----------|
| Basic Wind Speed                   | 28.0 m/s |
| Operational Wind Speed             | 26.0 m/s |

| Deflection            |                                  |
|-----------------------|----------------------------------|
| Less than or Equal to | 0.5° (at Operational Wind Speed) |

| Design Parameter     |   |
|----------------------|---|
| Structure Class      | 2 |
| Exposure Category    | C |
| Topographic Category | 1 |

## **Design Standards**

| Material         | Standard   | Steel Grade | Tensile Strength      | Yield Strength        |
|------------------|------------|-------------|-----------------------|-----------------------|
| Structural Steel | JIS G 3444 | STK 41      | 402 N/mm <sup>2</sup> | 235 N/mm <sup>2</sup> |
|                  | JIS G 3101 | SS 400      | 310 N/mm <sup>2</sup> | 245 N/mm <sup>2</sup> |
| Structural Bolts | BS 3692    | 8.8         | 830 N/mm <sup>2</sup> | 664 N/mm <sup>2</sup> |

CostWORX is the leading wholesale distributor of telecom & technology infrastructure products, supplying globally through a network of local alliance partners.

## **Codes of Practice**

ANSI/TIA 222-G : 2005 - Structural Standard for Steel Antenna Tower and Antenna Support Structures

ANSI/AISC 360-05 : 2005 - America Institute of Steel Construction

Galvanization Equivalent to ASTM A123 (2000)

| Features                |                      |  |
|-------------------------|----------------------|--|
| - Internal Caged Ladder |                      |  |
| - Work Platform         | 5m Below Top         |  |
| - Rest Platform         | 5.8m / 17.4m / 29.0m |  |
| - Holding Down Bolt Kit |                      |  |
| - Setting Template      |                      |  |
| - Lightning Spike       |                      |  |
|                         |                      |  |
